

Sustainable Procurement Process

Central Plaza Hotel Public Company Limited

1

IDENTIFY NEED & PLAN

- Identify business needs and assess total cost and impact.
- Plan quantities responsibly to avoid over-procurement and waste.
- Integrate Circular Economy principles into material selection by prioritizing the use of reusable and recyclable materials to help reduce waste generation.

2

SUPPLIER SELECTION

- Evaluate suppliers based on quality, cost, service and sustainability criteria.
- Prioritize local suppliers and businesses that create shared value.

3

SUSTAINABILITY SCREENING

- Screen suppliers using our Supplier Code of Conduct.
- Assess environmental, social, governance and ethical practices and compliance.

4

EVALUATION & APPROVAL

- Assess and compare suppliers fairly and transparently.
- Approve suppliers who meet our sustainability and performance standards.

5

RESPONSIBLE PURCHASING

- Place orders with approved suppliers.
- Communicate our sustainability expectations clearly.

6

MONITOR & COLLABORATE

- Monitor supplier performance on quality, delivery, cost and sustainability.
- Collaborate and support suppliers to improve and innovate.

7

REPORT & IMPROVE

- Track and report sustainability impact and progress.
- Continuously improve our purchasing practices for a better future.
