

Sustainable Packaging and **Materials**

CENTEL places great importance on selecting products certified for sustainability, including animal welfare standards and eco-labeled products certified by credible external organizations for use across our operations. In addition, the Company actively engages suppliers and business partners to support its goals of reducing single-use plastics and increasing the proportion of environmentally friendly packaging that is reusable, recyclable, compostable, or biodegradable.

Examples of recognized certifications and labels include Fairtrade International, Rainforest Alliance, and UTZ Certified. We also support the use of products certified under the Forest Stewardship Council (FSC) standard, as well as biodegradable and environmentally friendly materials that comply with internationally recognized standards such as ISO 14001, TÜV, the Biodegradable Products Institute (BPI), and the European EN 13432 standard.

In addition, CENTEL promotes responsible sourcing through certifications and programs such as the Marine Stewardship Council (MSC), Aquaculture Stewardship Council (ASC), the Dolphin-Safe program, and carbon footprint labels, reinforcing the Company's commitment to environmental stewardship and sustainable consumption.
